### From President Joy Miedecke...

I feel like I'm on the world's largest Roller Coaster. Everyday we see things changing and sadly it seems like for the worst! But there is some light ahead as a growing number of Republicans take a stand against the establishment Republicans that are against keeping our platform which supports our Christian beliefs. Our club has banded together with other great California groups to take a stand and support keeping the CAGOP Platform that already exists.

We have seen our elected officials tell us that we voted and supported them because they would and will support our values but as it has been seen, it takes no more than a few months to watch them leave us in the dust and support and defend the other side!

WE are heading for a war among Republicans and let's hope that the best man wins. It is and has been shocking to me, that they try to

defend themselves by saying they had to do it because they can change the severity of the bill. Well, we have seen what has happened and there is no coming back from the lies.

I personally will fight to make sure California doesn't get any worse than it is, but I am afraid that that is just a dream and many prayers are needed.

Attending our Take Action Committee (TAC) meetings will help you learn about what is going on in California besides the high gas prices, expensive food, and bad schools.

We must participate in our country because without that participation you are allowing bad people to make the decisions for you! Looking forward to many new roads ahead.

**From Velma Hagar  
East Valley Chaplin...**

The Judicial branch of our government are the judges who are appointed by the president and they are the \*least important\* of the three branches. Their job is to simply interpret laws. We can see that our country is completely out of order in the way things are done... The judges have way too much authority and are giving out their opinions rather than just interpreting the laws. It is a misconception that they are appointed for life. The constitution says they are appointed for good behavior, and any thing that is not considered good behavior can cause them to be impeached. This impeachment would be the duty of Congress to execute. Congress is also falling down on their job by not putting laws on the books that are good for the people. It is our responsibility as good Christians to pay attention to those who are running for office, and that they intend to represent the people by following the laws in our Constitution.

“A brilliant roadmap highlighting every corrupt actor, to ultimately return our agencies and departments to work for the American People...we will use this blueprint to help us take back the White House and remove these Gangsters from all of Government!” —Donald J. Trump

The highest levels of government have been infiltrated by an anti-democratic Deep State that can be defeated by refocusing our national security mission and relentlessly defending the truth.

A sinister cabal of corrupt law enforcement personnel, intelligence agents, and military officials at the highest levels of government plotted to overthrow a president. Even after they failed, they continue to secretly pull the levers of power without any accountability to the American people. This isn't the synopsis of a fictional spy thriller. This is what is actually happening in the United States government.

In *Government Gangsters*, Kash Patel—a former top official in the White House, the Department of Defense, the Intelligence Community, and the Department of Justice—pulls back the curtain on the Deep State, revealing the major players and tactics within the permanent government bureaucracy, which has spent decades stripping power away from the American people and their elected leaders.

## IMPORTANT INFORMATION ON VOTING - RED ALERT!

The BIG LIE that the “Vote Counting Computer Was Not On-line Is” OVER!

Voter Fraud Is Real Time Crime!

We Don't Want Selections but Elections!

“The Plan: How We Secure Our Elections” (click here)

Mike Lindell and his team of computer gurus have now designed a machine that you can carry to your local towns and cities voting places to monitor **legally** whether a vote counting machine is on-line or not AND they also created an App to police the vote counting from your phone or computer. The machine is called a WMD or Wireless Monitoring Device which monitors if a machine is on line or not. The **Frank Social App** then picks up these signal and send them to those Voter Monitoring people who will post this information on their social media sites and call the people who are in charge of election. These machines can be brought to where the votes are counted legally.

Lindell pointed out that We The People do no have the media, judges, politicians and an election platform that is not corrupted. Keep in contact with people by social media. The Frank Social App helps you keep an eye on voter fraud in your own backyard. You can watch any machine on-line using the Frank Social App. Remember to use social media like Truth Social, Gab, GETTR, MeWe and others but beware of facebook and twitter/X that remove content.

Keep communications open to people you can trust. Lindell has people in every state he trust which is over a quarter of a million people.

Why would you not want to watch the voting machines to make sure each vote is counted right? This WMD and **Frank Social App** allows us to police our own elections and the machines.

Lindell wanted every town to get these machines but funds are low for Mike Lindell. If you wish to know more and contribute please click on <https://lindelloffensefund.org/>

Real Joe Biden is on left. Look at the ears.

# A "Law and Order" September Luncheon

By Member Sunny Simonetti

More exciting than the TV show of the same name, the East Valley Republican Women Patriots luncheon in September featured the usual laughter, gaiety and positivity, punctuated by somber remembrances of the 9/11 tragedy 22 years ago.

On the latter subject, New York first responder Thomas Bruno gave a stirring account of his time on the scene. Bruno began with the dismissive description of 9/11 by Democrat Ilhan Omar along the lines of "somebody did something." No! Bruno declared to this comment, and went on to describe his three days at the site without the break of sleep. He concluded with the philosophical admonition to "do good deeds, and think of those who perished on 9/11."

Our main speaker, Chad Bianco, has been Sheriff of Riverside County for five years, and clearly loves and cares about his job. He chuckled that he'd arrived late for the luncheon because he had to pull over a driver going 105 mph, adding that the driver ultimately thanked him, and that Chad's wife Denise would rather he not do regular police work such as that. I don't blame her!

Chad described dealing with the press, stating individual reporters said to him privately that they are very pro law-enforcement, but for the sake of their jobs they have to report differently.

Chad discussed aspects of the crime problem, advising there is now a \$25,000 fine for anyone who tries to stop another person from committing a crime. Another is that police cannot speak to a juvenile except to ask the name of his or her parents. They cannot further interview them. This applies to anyone under 26 on the premise that their brains are not fully developed.

He discussed China influences on the last election by using Artificial Intelligence (AI).

Chad commented that everyone wrings their hands over gun violence, adding 3000 or so gun permits were issued in the past 27 years. Chad's department issued 32,000 permits—with zero used wrongly.

You had to be there to experience all of Thomas Bruno's, and Chad Bianco's remarks just as you had to be there to enjoy Frank DiSalvo's, and Stacy Mills great singing, and how the chef made the lunch of pasta and shrimp more flavorful than you could imagine!

So make plans to attend the October 2 luncheon!

## Why War?

Diana Gomez - Newsletter Editor

September is when we pay tribute to our first responders and those who were at the ground zero New York Trade Towers. This strike was an act of war and we continually ask "why?".

Watched several series on Wars and still there were the usual reasons "why" war was declared on other countries to secure the freedom of the people and their rights to live a good life. U.S. waltzes in to save the day on the white horse seeking revenge. But in looking through six social media programs full of what war is articles, here's the eye opening list of what war really is and as always follow the money trail. It is a sad state of affairs following the money trail when it is now being reported that 800,000 children disappear every year in the U.S.A. alone. Have you ever wondered what happened to all those Nazis Scientists and where they went after WWII? Ukraine welcomed the Nazi's into their country and even created a Nazi state. Ukraine one of the hubs for the billion dollar business of child trafficking. What is war really used for by the elites, the World Economic Forum? Why does Biden continue with the Ukraine war narrative? Here's the list you can add to for "Why War?":

- 1) War creates orphans that can be put into the pedophile system and for Big Pharma to use children as guinea pigs.
- 2) Drug running
- 3) Big Pharma makes billions from the casualties of war.
- 4) Cover up murder/satanic ritualism/ cannibalism/sadism/organ harvesting
- 5) Cover up Genocide/bioweapons used as pandemic
- 6) War is a way to get people off the land so that government can take over their homes
- 7) War is used to test new weapons of mass destruction like the lasers we have seen from forest fires and Maui fires calling it climate change.
- 8) Slave/Sex trade

- 25) Create your own list.

As I have said before, follow the money trail and you will get answers. Control and cover up is the name of the game. This list is just a few of the evil things going on all over the world and in our own community. It is important to take drives in our own community even out in the country and be aware of things that look odd. Be armed with your cell phone to take photos. Be aware of what is going on in that favorite restaurant, something doesn't look right or a person who does not seem right especially around small children. Be aware of your environment and optics being used. It's time we step up to the plate. We The People are in charge, so let's act like it. We must demand action and accountability from the people who go to represent us in the local, state and federal level that we will not accept war! Government will no longer tell us who we will war with. WE THE PEOPLE MUST STAND OUR GROUND!

**If you don't TAKE ACTION NOW, when will you?  
If it isn't YOU, who will it be?**

**HERITAGE ACTION FOR AMERICA**

The grassroots are what give life to Heritage Action, the conservative movement, and to the country. When the conservative grassroots make their voices heard, elected officials can't help but take notice.
