From Velma Hagar, East Valley Chaplin...

If it is God who institutes kings and leaders, is it then no longer necessary for the Christian to be involved in political systems? This is a controversial idea in the Christian community today for fear of being divisive. It is the tendency of many to disregard current day politics because God is in control of all of it anyway, right? Wrong! It is said that people should not communicate about politics or religion, and yet these are the two things that every war is started over... Not only do we need to communicate... We need to learn the truth, and we need to vote! If you are a Christian, and you choose not to vote... You are choosing to let evil rule... Because when Good men do nothing... Evil will ensue. Vote... And respectfully share your truths with others.

Thank you to all of you who have donated to the USO!
Keep those CASH AND CHECK donations coming!

East Valley Republican Women Patriots continue to support the USO in Palm Springs by providing toiletries for the small travel packs USO gives to Marines flying into and out of Palm Springs Airport.

However, since many items donated in the past did not meet the USO criteria, we are asking that you donate money instead and we will go out and purchase what is needed.

At the November and December luncheons, we will have a large jar into which you can place cash or checks made out to EVRWP in the amount you wish to donate. Now you don't have to go out and shop. We will do it for you!

Also, if any of you have the desire to help put together the travel packs, please let Chris Mahr, Support the Troops chair, know. This will be done in February at a date to be announced. USO would love to have a team of us help with this at their headquarters at the airport

Lunch with the Stars

by Member Sunny Simonetti

Casa Simonetti was hit with several home repairs this week, including being without a refrigerator for nine days! Therefore I am reporting on the wonderful January 8 luncheon of the East Valley Republican Women Patriots a bit later than usual.

My notes may be a bit sketchy but the luncheon was anything but! There were so many celebrities in the audience alone that

President Joy Miedecke announced them from the podium at the start of the luncheon, including popular vocalist, Patricia Welch!

Of course, the real star of the luncheon was Linda McMahon, who is chair of the Center for the American Worker for American First Policy Institute (AFPI). She was interviewed by Melissa Melendez, who, as you know, is a former state senator. It was great to chat with Melissa and have my picture taken with her. She is excited to be joining McMahon in working with the AFPI. McMahon shared how she originally met President Trump. She was the leader of the World Wrestling Entertainment (WWE) and President Trump is a great fan. They met at a match and later had dinner together. She shared that President Trump is a great fan of popular music and very knowledgeable about it.

Preceding the interview was former state senator Mike Morrell, who gave an encouraging, faith-based speech. He mentioned his book, "Restoring the Family." Morrell's remarks gave us all great hope for the future. He quoted Samuel Adams, "We will never be abandoned by heaven, if we act worthy of its protection."

Brief talks were given by two 17-year-olds, a boy and a girl. They are affiliated with an organization dedicated to promoting conservatism among youth.

On the lighter side, but very compelling, were the vibrant vocals offered by Lizanne Warner, including a rendition of the Star-Spangled Banner, as I've never heard it before! She was worth the price of admission by herself.

If you think the picture of the chicken that we had for lunch looks yummy and delicious, you would be right.

All in all, another spectacular EVRWP event!

From Legislation Chairman Arlene Wohlgemuth...

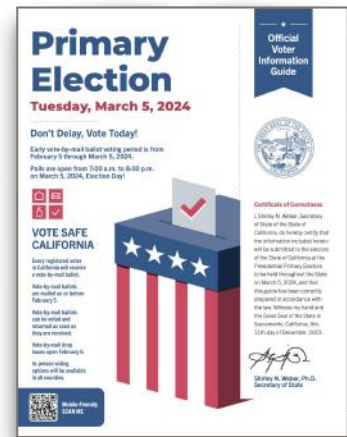

You should have received the Official Voter Information Guide for the March 5 Primary Election, which is all about Proposition 1, the only proposition on the March ballot. If you have not all read the thirty-three pages of the combined SB 326 and AB 531 which is now before us as Prop 1, this will save you the misery.

As those who attend the Take Action Committee meetings on Tuesday mornings at 10:00 have heard me say, and will continue to hear, the Left is successful in pushing their policies utilizing one of two tactics – fear or sympathy. This proposition plays on sympathy. After all, what person with a heart doesn't want to provide mental health services to the homeless, and mentally ill, and to veterans? This one, and here's why.

First, a brief synopsis with quotes from the Legislative Council analysis. Proposition 1 creates the Behavioral Health Infrastructure Bond Act of 2024 to authorize \$6.38 billion in general obligation bonds to finance permanent supportive housing for veterans and others, as well as behavioral health treatment and residential settings for individuals experiencing homelessness or at risk of homelessness with severe behavioral health challenges. Allows for construction **"by right streamlined, ministerial review for capital projects funded by the bond."** The fiscal effect of this bond is a minimum of \$7.76 in principal and interest over the 30 years of repayment, and if interest rates increase to 5% in the near future, the total costs would be approximately **\$9.13 billion.**

1. This state has already spent billions of dollars on homeless housing and treatment programs that have proven to be totally ineffective because they are based on the flawed progressive policy called Housing First. Hasn't worked and won't work. By design? You be the judge. Has homelessness increased or decreased?
2. A general obligation bond is a way to increase the state's debt, this one over 30 years at taxpayer expense. It is long term debt to the tune of \$9.13 billion.
3. We will someday discover which contractors have profited from these public programs. Recent news reports revealed a San Francisco hotel being remodeled into efficiency apartments for the homeless at a cost of \$478,000 per unit and a similar facility in Sacramento for \$567,000 per unit and another for \$340,000 per unit. As my daddy would have said, this is money down a rat hole, and I believe there is a rat at the bottom.
4. The right to streamlined, ministerial review is offensive beyond words. This means that the projects are not subject to environmental laws or local zoning restrictions. First, the legislature created environmental laws for all developments and now they exempt their pet projects – laws that add expense and serious time delays. Laws for THEE but not for ME. Added to this, ministerial review exempts the projects from local zoning laws that protect property owners. Sacramento makes all the decisions for us.

Don't allow sympathy to override common sense.

From Political Commentator Member Kathy Solinski...

DAVID TOOK ON GOLIATH

The brave people on the small island of Taiwan stood up to the bullying and threats from the Chinese Communist Party (CCP). They elected an anti-CCP candidate in Vice President Lai Ching-te, of the Democratic Progressive Party (DPP) on January 13, 2024. This election was historic. China's threat of war on Taiwan and funneling of money into Taiwan to sway the election, backfired. For the first time since 1996 when the island republic held its first democratic presidential election, the conservative party has won a third-straight presidential term. Their voting turnout was 75% with no voting machines and hand counting of ballots, resulting in same-day results. Imagine that. The people in Taiwan have become accustomed to endless threats from China and according to Bob Yang, (former president of the pro-Taiwan Formosan Association for Public Affairs), "the people seem to take them in stride. They are a free people living just a little more than 100 miles from the menacing Chinese state and refuse to be intimidated."

This island with 23.5 million people is so vital because they make 60% of all conductor chips in the world and 90% of the most advanced semiconductor chips in the world. The last thing the United States, or any country should want, is the CCP having control over Taiwan and their conductor chips. (Without conductor chips there would be no smartphones, radios, TVs, computers, advanced medical diagnostic equipment, cars, etc.)

The Taiwanese people share the same ancestry, culture and language as the Chinese people and the people of China were celebrating this victory. That was until the CCP shut down all celebrations and communications coming out of Taiwan. Xi Jinping (President of China) was furious and has reiterated that he still plans to conquer and annex Taiwan. Sadly, Xi Jinping will not stop his aggression and the Biden Administration said they do not support independence for Taiwan. Just another reason for the Biden Administration to be voted out. This election marked a third win in a row for populism with Geert Wilders' victory in the Netherlands as Prime Minister, Javier Milei elected as President of Argentina, and now Ching-te in Taiwan. Congratulations to the people of this small island for not being afraid of the behemoth country of China. They are an inspiration to free people everywhere.

TRUMP LIVED "RENT-FREE" IN THEIR HEADS AT DAVOS

Last week the global elites were living it up partying and skiing in Davos, Switzerland at the World Economic Forum (WEF). It was their yearly bash of world leaders and corporate CEOs from around the world. Their one primary goal is, what it has always been, complete and total dominance and one world government order. They want control of the United States first because they know if they get the United States, it will be much easier to gain control of the rest of the world. One thing, however, had them very concerned. DONALD TRUMP AND THE MAGA MOVEMENT. This is why it was a tough day for them in Davos last Tuesday after Trump's resounding victory in Iowa. According to Noor bin-Ladin, (guest contributor on War Room Podcasts reporting from Switzerland), the FBI and leaders such as John Kerry (US Special Presidential Envoy for Climate), Jake Sullivan (National Security Advisor in the Biden Administration) and Anthony Blinken (Secretary of State) were all in attendance and in full lockstep with the Davos agenda. Noor bin Ladin stated even though Trump was not there, behind the scenes he dominated the conversation throughout the entire summit.

Their theme for this year was "Rebuilding Trust." The WEF knows the world is waking up to their agenda. Hence, the terrific speech from Javier Milei, (President of Argentina) excoriating socialism; and Jamie Dimon, (CEO of Chase Morgan Bank, and not a Trump fan) saying Trump was right all along about the major issues. Dimon said the Democrats should stop attacking the MAGA crowd because they are good, hard-working people and not all necessarily Trump supporters. Additionally, he stated, it will only hurt Biden's chances of re-election.

During the WEF summit items discussed were Covid, the handling of the crisis, and what we can expect in the way of cooperation from countries and corporations around the world. These companies and countries will work together with the World Health Organization (WHO). Which is effectively controlled by the CCP and largely underwritten by Bill Gates and Big Pharma. The WHO and these organizations portray to have all the solutions, when in fact, they are the ones creating the crisis.

The world has to have crises for government to have control. Covid-19 was a perfect example. The controlling and shutting down of businesses, schools and churches. Telling people not to leave their homes. You had to wear a mask or you could not enter a grocery store, hospital or bank. They didn't want you visiting Grandma. You had to take the vaccine (it was not really a vaccine in the true sense of the word) or you could not go to college, be in the military, fly on a plane, etc. It was all a ruse. The vaccines and masks did not work. BUT, the government had CONTROL. And that was all that mattered to them.

(Now, please don't get me wrong. I am not saying Covid was not serious. We all know it was.) My point is, Dr. Fauci and our government lied to us about the effectiveness of the vaccine, the use of masks and number of deaths from Covid. Did you notice during Covid there were no deaths from cancer, heart attack or stroke? Everything was labeled Covid to make it sound worse than it was and to scare us. This was almost like a test to see how easily the American people would comply. And, sadly most did.

For years, elites like Bill Gates, Klaus Schwab (Chairman of WEF), the late David Rockefeller (Chairman and Chief Executive of Chase Manhattan), and even the late Prince Philip, all talked about the de-population of the world (Project 2030). What is coming appears to be a criminal plan of world de-population. They will attempt to achieve this through creating a false pandemic and the imposition of a false vaccine (which we now know to be a biological weapon of mass destruction). We are already being told we will have another "pandemic" referred to as Disease X (X means unexpected). It could potentially kill 50-150 million people worldwide, (30-40 million in the United States) and they are trying to sell us on the idea we need to have a world government to help save the earth from this catastrophe. You can bet "Big Pharma" already has the "vaccine" (they just need the pandemic) and are looking forward to making billions of dollars. The World Economic Forum and National Institute of Health (NIH) are referring to vaccines as "anything we put in your body." There is talk about putting vaccines in our food and patches on our arms. Disease X has already been beta tested in Italy and Australia to see how these agencies would need to respond. I watched a video on Info Wars Podcast that was put out by Johns Hopkins in conjunction with the Rockefeller Institute, called "War Games Drill," simulating what would happen to the world during Disease X. It's not pretty. (No surprise here, but that video has since been banned.) Not to be overly dramatic, but this appears to be a revolution to not only de-populate the world, but take control of our minds and bodies. You can easily research Disease X online and read about it. They are preparing us and trying to sell us on why we NEED government control. I am not writing this to scare people, but to help us all understand the dangers of these organizations and their plans for the world. I write this so we will not be fooled, understand what is happening and consider very carefully before getting another new, potentially very dangerous vaccine. THIS IS WHY IT IS ESSENTIAL THE UNITED STATES EXIT AND DEFUND THE WORLD HEALTH ORGANIZATION. And, thankfully now that we are seeing conservative leaders being elected all around the world, they will advocate for the same.

TAKE RESPONSIBILITY FOR YOUR LOCAL COMMUNITIES. Every month is Human Trafficking Awareness Month. It is crucial to acknowledge the interconnected challenges stemming from an open border. The lax monitoring and response to illegal activities, including drug trafficking and human exploitation, stand as stark consequences. This issue demands immediate attention, as the lack of decisive action perpetuates an environment where these illicit activities can thrive.

Together we can work towards a safer and more secure America, putting an end to the perils of drug trafficking and human exploitation. It's time for decisive border policy measures and a commitment to safeguarding the well-being of our communities.

“These are the times that try men’s Soul.” Founding Father Thomas Paine.

English-born American Founding Father, French Revolutionary, political activist, philosopher, political theorist, and revolutionary. He authored Common Sense (1776) and The American Crisis (1776–1783), two of the most influential pamphlets at the start of the American Revolution, and he helped to inspire the Patriots in 1776 to declare independence from Great Britain.

HERITAGE ACTION FOR AMERICA

The grassroots are what give life to Heritage Action, the conservative movement, and to the country. When the conservative grassroots make their voices heard, elected officials can’t help but take notice.
