Congratulation From the Desk of President Joy Miedecke...

In January, we awarded two volunteers our volunteer of the year award for 2022. These ladies have gone over and above to make sure that our club is the best that it can be. The first honored was our First Vice President, Sandra Schulz. Besides having an incredible background in business, Sandra is creative and is a jack of all trades. There's no way, East Valley could've survived without her hard work and ingenuity. Thank you Sandra Schulz.

The second honoree is Linda Davis, who took on the duties of making sure that the volunteers are always fed, that the shopping is done, and that our baskets are wrapped pristine. Besides her beautiful red hair she is an incredible lady inside and out.

Our upcoming fashion show is going to honor our volunteers. When you look around the building, you know that it is always full of wonderful women who give up their own personal time to come in and make sure that customers are helped and the jobs are done. We are blessed in so many ways. As a club, our strength comes from not only our convictions, but also those who walk in our door, needing a shoulder or information, to be able to register to vote, and enjoy the company of like-minded people, attending meetings, and praying at our wonderful prayer meetings. There are so many volunteers to honor. I don't know where we would start, but those two are shining every day and we wanted all of you to know how fortunate we are. Hope to see you at our luncheon on March 13th! Also, renewals have been sent out. If you had already renewed, please disregard. Sometimes we miss things.

Hope to see you soon,
Joy

 ...This is my quest
 To follow that star
 No matter how hopeless
 No matter how far

 To fight for the right
 Without question or pause
 To be willing to march, march into hell
 For that heavenly cause...

And I'll always dream the impossible dream
Yes, and I will reach the unreachable star!

Good Christians Make Good Citizens

The Purpose of government is to protect the rights of man. Self defense is biblical. The “castle document” was established to protect the castle or the home of all men. A man’s house is his castle. The right of a man to bear arms cannot be disputed because it is a God given right.” And it is needed to protect our home, and our families. Our founders were shaped by God, and It is our responsibility to guard, obey and protect our homes and our country, as well as our God given constitution. Our American freedom is precious and good people need to get involved in politics to preserve our American traditions and moral values. The Bible and our Christian faith is still relevant in America. American history needs to be preserved and taught to our youth. bad history is being taught and the progress that America has made throughout history has been omitted. Today, many Christians think they should not get involved in politics, and this is so absolutely untrue!! we are told to “occupy until he comes.” So it is a mandate from God to be a caretaker of the land that he has put us in charge of. Voting is one of the biggest responsibilities that we have as a Christian, and in order to vote effectively, we need to study the platforms, and then be sure and vote for Christian values.

Many excerpts taken from biblical citizenship class at headquarters every Tuesday morning at 9 AM.

Attend our prayer meeting every other Wednesday at 9 A.M. at headquarters.

The Heritage Foundation is linked to Hillsdale College in which the Sentinel Nation and Heritage Action for America is their activist side. February Luncheon Highlights - Dr. Naomi Wolf

The **Bodies of Others** is about how we came to the harrowing civilizational crossroads at which we find ourselves - engaged in a war against vast impersonal forces with limitless power over our lives and which threaten the freedoms we have always taken for granted.

In her most provocative book yet, Dr. Naomi Wolf shows how these forces — from Big Tech and Big Pharma to the CCP and our oligarchical elites — seized upon two years of COVID-19 panic in sinister new ways, to not only undermine our Republic but to fundamentally reorient human relations.

Their target is humanity itself. Their end goal is to ensure that our pre-March 2020 world is gone forever. Irretrievable. To be replaced with a world in which all human endeavor—all human joy, all human fellowship, all human advancement, all human culture, all human song, all human drama, all worship, all surprise, all flirtation, all celebration—is behind a digital paywall. A world in which we will all have to ask technology's permission to be human.

But we, the people of the world, did not vote to abandon our old systems and destroy our old ways so absolutely they could never be recovered. And Wolf shows how, against overwhelming odds, we still might win.

FORGING THE CALIFORNIA FUTURE (MUST READ) East Valley Republican Women Patriots THE GOLDEN STATE POLICY COUNCIL (GSPC)

The Golden State Policy Council is a 501(c)3 non-profit, non-partisan research institute.

Our mission is to promote and defend limited government, personal responsibility, and free enterprise in California by educating and affecting policymakers and the California public policy debate with academically sound research and outreach that will provide liberty and prosperity for our citizens.

Establishing a free-enterprise policy organization in Sacramento is one of the goals of East Valley Republican Women Patriots. We know that to change what comes out of the legislature will require more than sending more Republicans to represent us. As vital as that is, it is also important to provide sound policy ideas to legislators, testify in committee hearings, and aggressively communicate better policy solutions to the voting public through effective messaging.

Golden State Policy Council is proud to have as president our former state senator, Melissa Melendez. The new office is three blocks from the State Capitol, giving the policy analysts easy access to present their research to legislators and legislative staff as well as testify in committee hearings. As research is developed, you will be able to find it and other information at www.GoldenStatePolicy.com. **Sign up to receive updates.**

We are blessed to have received a matching grant of up to \$250,000. Every dollar we raise will be doubled. That means we need your help to take advantage of this offer. Would you consider making a tax deductible donation?

Are you able to host a small Discovery Meeting, or know someone who would, to allow us to introduce Golden State Policy Council (GSPC) and its mission to a few friends?

Thanks to the generosity of one of East Valley Republican Women Patriot's member, the phone service for GSPC is being donated to help us get started.

If you can help, call our new phone number - (916) 980-8585.

Mail Checks to P.O. Box 3855, Palm Desert, CA 92261 or at the luncheon...

Another Attack on the Family – ACA 5

ACA 5 has been filed in the California Assembly with several senators and assemblymen, listed as co-sponsors. The specifics have yet to be filled in, but the basic premise is to enshrine in the state constitution that marriage is basically without definition.

There is little doubt that the bill will make it to the ballot in the next election and receive a favorable write up by the Attorney General in both the proposition wording and the accompanying election information. As we saw with 2022's Proposition 1, the voters will be made to think they are only codifying what is already law. But also as with Prop 1, it is much more than that.

The history of the current debate began on November 4, 2008. California passed Proposition 8 by more than 600,000 votes which provided "that only marriage between a man and a woman is valid or recognized in California" reversing an earlier state court ruling deeming the ban on same-sex marriage unconstitutional. Regardless of the clear voice of the people and a subsequent favorable ruling by the California Supreme Court, a federal district judge ruled the new provision unconstitutional in 2010. That ruling was upheld by the Ninth Circuit Court of Appeals, reinstating gay marriage in California. Fast forward to 2015 when the U.S. Supreme Court ruling in Obergefell v Hodges legalized gay marriage in the nation.

Proponents of ACA 5 argue that removing the Prop 8 language from the state's constitution is necessary because of the fear that the U.S. Supreme Court will overturn Obergefell just as they did Roe since both rulings were based on the "right to privacy", found nowhere in the U.S. Constitution. If proponents' argument were truthful, ACA 5 would simply strike the current Prop 8 language. Instead, ACA 5 says, "It is the intent of the Legislature to amend the Constitution of the State relating to marriage equality." Just what is marriage equality? Stay tuned for the legislature has not defined marriage equality and may not do so until after the term becomes a part of the state constitution. Remember Pelosi's famous words, "We have to pass the bill so that you can find out what is in it." Just as Prop 1 was promoted as simply putting current law into the constitution when in fact it removed all restrictions on abortion, what we are led to believe about the coming proposition will likely not be the whole story.

Still, one may question why make a big deal out of it when the U.S. Supreme Court's legalization of same-sex marriage still stands, and herein are a few reasons to work against what will surely become a ballot proposition.

1. **Virtually Irreversible.** As we saw with the Supreme Court ruling on Roe v Wade, the Court can change. We also know that the make-up of the California legislature can change. But, by putting this language in the state's constitution, the bar is raised significantly in getting it changed. If a measure qualifies for the ballot by way of initiative, thousands of dollars and thousands of signatures are required to accomplish the daunting task. If a measure comes by way of the legislature, it requires a 2/3 vote by both the Assembly and the Senate. In other words, the proposition that emerges from ACA 5 will be next to impossible to change. At some point, Californians will come to realize that marriage between a natural man and a natural woman is desirable for a healthy and prosperous society, and they will be unable to advance bills that promote intact, natural family formation because the bills would be ruled unconstitutional.
2. **Benefits of Traditional Marriage.** Remember when it was commonly accepted that families are the building blocks of society? Turns out, that was true then and still is now. In every single measure of success, health and safety, nothing beats a traditional family situation. For example, women and children are far less likely to live in poverty if they are in an intact family. The safest place for children to be free from abuse is to live with their original mother and father. The farther away from that family structure, the more likely abuse becomes for both mother and children. Children suffer in mental health, in academic achievement, in susceptibility to drug abuse, in stable family formation as adults, and the list goes on. Adults, too, are less healthy and less prosperous. The research was well documented from both the Left and the Right until the cancel culture prevailed. The ability to do honest research may no longer exist, but the truths of family structure and family formation remain unchanged.
3. **Advances a Goal of Marxism.** One of the goals of Socialism and Communism is to destroy the traditional family. It is so much easier to control the population when the government does not have to deal with mothers and fathers defending their children and their family. Communist Russia even went so far as to assign mothers and fathers to work in different parts of the country so as to divide the family.

The family is worth fighting for. Please take every opportunity to work against ACA 5 as it goes through the legislature and make your friends aware NOW that they will face a proposition on the next ballot that is not what it seems.

California Policy Council Makes It To Fox With Senator Melissa Melendez

The Kevin Roberts Show

Each episode of The Kevin Roberts Show is a weekly rallying cry for lovers of freedom everywhere, packed with Dr. Roberts' analysis on the issues of the day and deep conversations with the movers and shakers of American politics and culture. And all of it backed by the academic excellence of The Heritage Foundation.

As a former college professor and current president of The Heritage Foundation, America's most influential policy organization, Dr. Roberts has spent his career learning, educating, and taking decisive action for a brighter America. He believes that conservatives have every reason to be hopeful, because conservative ideas are ideas that work. It's time to go on offense.

Here's the rant that made Derek Johnson - Rattletrap1776 famous. Derek explained why President Trump is still our president using U.S. laws and order. To the right President Trump caught his rant and now has him in his office in Palm Beach, Florida Cowboy hat and all. This is on social media Telegram. Check out the optics...

As I explain to the table, with his personal Attorney to my left, 4X Major Champion, Brooks Koepka, his brother and friends, after they asked a specific question, how "this gyyyyy (pointing to Bossman) is still CIC by the Law of War Manual, Military Justice Act, Executive Orders 13848, 13919, & 13963, etc."

The voice on Bossman's phone that he has purposefully lifted to hear me talking, with his second phone on table, "that guy knows what he's talking about." 🤡🇺🇸
