RUSSIA!! RUSSIA!! RUSSIA!!
 Their Story Matters Today More Than Ever!

Simona Papadopoulos

George & Simona Papadopoulos experienced first hand the weaponization of government against its political foes. Our October events offer two great ways to hear their story:

Oct 1: Elegant evening reception in a private home will include refreshments and a photo. Attendance at this event is extremely limited.

Oct 2: Lunch at Agua Caliente Casino Cahuilla Ballroom in Rancho Mirage.

TABLE NUMBERS

For your convenience, we will be numbering tables at Agua Caliente Luncheons. We received good feedback as people were able to text their table number to friends so they can be found! We are very happy to help in any way to make these events enjoyable in every way.

From President Joy Miedecke...

I am over the moon excited about our luncheon speakers for October. Not only has George Papadopoulos been a part of one of the biggest government scams of all time, but he has had to pay the price even when found innocent. His wife, Simona, born a few kilometers from where my very own mother was born in Italy, is an attorney and model. We are so very excited to offer you a private party with George and Simona at a beautiful estate in Palm Desert, the night before our October luncheon.

As they jet set around the world, this couple talks about the U.S. Constitution of the United States and how important it is to have a truthful and patriotic government.

I hope you won't miss this great meeting package. I can promise you that you will enjoy it.....

We are starting to put our classes together to ready us for the election. I hope you will set aside time to work to get responsible Republicans elected. Dates will be posted soon.

The things that we have seen over the past 3 years have let us know that the Democrats cannot be trusted. They are the breakers of laws; they are the breakers of the Constitution!

Looking so forward to seeing you...

EAST VALLEY HONORING OUR FALLEN

August 26th at headquarters, East Valley Republican Women Patriots honored those who lost their lives in Afghanistan. . The 13 young men who died, and it could've been prevented. For the names of the fallen see the article in the [Marines Times](#).

What Heritage Foundation Sentinels have accomplished so far in 2023

I wanted to share a bit of encouragement. It can be overwhelming to look at the work that is still needed to save the country, but Heritage Action's 2023 Mid-Year Report is a great step back to see all that Sentinels have accomplished so far this year.

The report outlines the successes we have been able to achieve in state after state on conservative policy priorities. Go here to see the full report (but here is a brief summary):

New laws Heritage Action Sentinels have pushed across the finish line in 2023 (so far...)

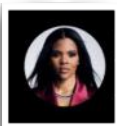

- 16 Education Freedom Bills in 13 States
- 7 Life Bills in 7 States
- 21 Family Bills in 17 States
- 18 Election Integrity Bills in 11 States
- 18 Bills Countering Communist China in 13 States
- 3 Big Tech Bills in 3 States
- 2 Immigration Bills in 2 States

But Sentinels have not just gone on offense in the states, you have also put the Biden administration back on their heels. In 2023, you have already submitted 41,602 comments pushing back against Biden's regulatory overreach.

I wanted you to know that every call, email, event, and effort Sentinels make has a significant impact – especially when we work together. Even in California – Sentinels are effectively fighting back against the Left's agenda.

Go to heritageaction.com/2023-mid-year-report to see the full report.

Thank you for your dedication. Onward!

To our loyal subscribers:

We will be repurposing our California Sense and Nonsense website to which you have subscribed. Beginning very soon, the domain name will be changed to www.coalitionofconservativewomen.com as the new organization - Coalition of Conservative Women - is launched. This new statewide organization will advance the principles of limited government, individual liberties, free enterprise, and traditional values through member local clubs dedicated to electing conservative members to the California legislature and providing grassroots messaging and support. You will be able to subscribe to the website and keep up with the member organizations in your area. If there is not one, please consider starting a new club with the same principle-based mission. It's time for all of us who care about the future of our state to get involved. We believe COCW can provide the support needed for new and existing clubs to grow and maximize their effectiveness.

**Republican National Committee (RNC) Has Passed a Series of 10 groundbreaking Resolutions
Safeguarding Our Elections and Ending Manipulative Voting Schemes**

From Mike Lindell

Your support has been instrumental in achieving a remarkable milestone in the war against election crimes!

As I recently shared, the triumph we've achieved is nothing short of extraordinary – the Republican National Committee (RNC) has passed a series of 10 groundbreaking resolutions aimed at safeguarding our elections and ending manipulative voting schemes.

This resounding success is a direct result of your unwavering support of the Lindell Offense Fund!

These resolutions, collectively called the "Return to Excellence in American Voting," pack a powerful punch that our Founding Fathers would be proud of. I can't emphasize enough how critical your role has made this possible!

Here are some highlights that showcase the impact of your contributions:

Advocating for Paper Ballots: The RNC now fully supports the adoption of paper ballots, hand counts, single-day elections, and precinct-level voter ID requirements. This commitment to secure and accountable voting methods will help fortify the foundation of our democracy.

Ending Extended Election Periods: No longer will Election Day be stretched into a never-ending season of early and vote-by-mail ballots. This resolution reinforces the importance of a single, well-defined election day.

Supporting Voter ID Laws: The RNC is championing the enactment of voter ID laws, urging states to establish regulations that verify the authenticity of every voter, thereby ensuring the integrity of our elections.

Embracing Secure Voting Technology: The RNC pledges support to states and counties as they shift away from vulnerable electronic voting machines, thus reducing the risk of manipulation.

Erasing Ballot Harvesting: This resolution definitively puts an end to unchecked, unsupervised ballot drop boxes, eliminating a loophole that has been exploited by the left and contributing to the questionable outcomes we've witnessed.

Arizona Republican Committeeman Tyler Boyer noted that these resolutions set a clear path for Republicans nationwide to hold officials accountable and ensure adherence to our party's stance.

Your financial support and prayers have fueled this monumental victory! Even prominent conservative voices like Charlie Kirk have recognized the incredible work you've helped us achieve.

But our work still needs to be finished!

As we gear up for the 2024 national elections, the groundwork laid by these resolutions is crucial. We must keep the Deep State and corrupt election officials from stealing another election!

The challenges ahead demand our continued dedication and financial support. By giving monthly to the Lindell Offense Fund, you provide the resources needed to actively engage with elected officials at all levels and advocate for the protection of our Constitution.

East Valley Republican Women Patriots Support Resolution Passed by Republican Party of Riverside County to Retain the Current CAGOP Platform Protecting Life and Marriage

August 28, 2023, Palm Desert, CA - On Thursday, August 23, at the Republican Party of Riverside County (RPRC) Central Committee general meeting, the members overwhelmingly voted to adopt a resolution supporting the current CAGOP platform. It begins, "Whereas, the existing California Republican Party Platform contains language that adequately reflects our Party's conservative values as it relates to issues of marriage and the right to life..."

Members recently became aware of proposed Platform Amendments put forward by the CAGOP Platform Drafting Committee, slated to be voted on and adopted at the CAGOP Convention the weekend of September 30, 2023, in Anaheim.

"Upon review and comparison of our current Platform language to the proposed amended language, we quickly realized that the Platform was drastically being transformed, especially as it relates to the issues of life and marriage," said Samantha Sobarzo, the Resolution co-author and Chairwoman of the Republican National Hispanic Assembly of Riverside County.

Given the importance of halting the Platform Amendment, and the timeline urgency, she and co-author, RPRC Central Committee Member Louisa Millington drafted the Resolution brought forth at the August 23, 2023, RPRC Central Committee meeting. The body voted overwhelmingly to adopt the Resolution as drafted. "Both Louisa and I give all glory to God for allowing this to take place," said Ms. Sobarzo.

"As president of the East Valley Republican Women Patriots and as a delegate to the Central Committee, I proudly voted in favor of the resolution. We have worked closely with Ms. Sobarzo and Ms. Millington and support their ongoing efforts to retain the principles that distinguish our Republican Party as protecting life and promoting the traditional family structure."

East Valley Republican Women Patriots is the nation's largest Republican Women club and is based in Palm Desert, California.

Digital Warriors Defined: We are the largest and most lethal fighting force the powers of evil have ever faced. An Army more that 1 billion strong, raised up by the Living God to reclaim the minds and hearts of man. We are doctors, garbage men, nurses, professors, attorneys, teachers, factory workers, businessmen, cooks, fathers, wives and friends, united as Digital Soldiers and assigned the same mission: Eradicate the lies of the world and those who tell them. We will get every last one.

ARTIFICIAL INTELLIGENCE - "AI" BUZZ WORD

Information Technology Chairman Diana Gomez

Artificial Intelligence (AI) is being used by most people today in the way of a cell phone or some computerized machine. *Britannica* defines "AI" as machine learning:

"Machine learning, in artificial intelligence (a subject within computer science), discipline concerned with the implementation of computer software that can learn autonomously.

Expert systems and data mining programs are the most common applications for improving algorithms through the use of machine learning. Among the most common approaches are the use of artificial neural networks (weighted decision paths) and genetic algorithms (symbols "bred" and culled by algorithms to produce successively fitter programs)."

The AI algorithms can be used in the voting machines to change a vote, create holograms which creates fake people, understand face recognition, create silicon masks for people to be someone else. You can see this type of machine use in the latest *Mission Impossible* movie with Tom Cruise. Never thought I'd be anxious for another *Mission Impossible* movie part 2 because they were so spot on with what is going on today. The movie brought out making fake people in which Tom Cruise had to distinguish between the hologram fake and the "authentic" person. We are at that cross road today.

The Great Awakening.

This crossroad is white technology and black technology. White technology means that the technology is being used for good while black technology is being used for evil. We now have laser weapons that can destroy a town, forest or just one person's home or bring down a plane. See the photo to the right where SGAnon points out that lasers do not burn the color blue. The white streak on the photo is the laser leaving burn marks on the red/yellow and none on the blue color.

Machines have been created to control the weather. Have you noticed that clouds at times look like they have been cut with a cookie cutter and the weather people never talk about the chemical trails over head. Many people have said that Joe Biden wears a mask because at times you can see where the mask comes apart at the ear. Masks are being used for doubles across this country. Masks have been designed by Hollywood with the help of the CIA for years.

Machines can even create viruses and just about anything that can be called good or evil. Machines are as good or evil as the person who writes the algorithm. We are now in need of fighting for our votes to be counted honestly and fairly. Mike Lindell just had a Crime Bureau Summit, August 16 and 17, in which our vote was made important. One of the results of the summit was the WMD machine which is a wireless monitoring device. This machine monitors the voting machine. We need this in California.

Mike Lindell, of Lindell TV/My Pillow announced "The RNC Finally Passes Resolution Demanding Hand-Counted Paper Ballots." See more on RNC Resolutions in this newsletter.
