AND...

THANK YOU TO THE WOMEN AND MEN OF EAST VALLEY WHO MADE THIS MOVE HAPPEN!

President's Message from Joy Miedecke...

We are starting out with a bang for our 2023/2024 season of speakers. Prouder than ever of our speaker, Sheriff Chad Bianco and our salute to five of his most outstanding officers. As we all know, Sheriff Bianco has stood up for American and the safety of its citizens. When I think of what our sheriff goes through every day I cannot even fathom the frustration and sadness he must have. The drug war that has been waged is enough on its own, trying to protect us from the illegal entry of these drugs to the U.S.A. at our own borders from Cartels.

Our member, Thomas Bruno, will have lots to share with us on that day, as he was part of Firefighter First Grade Ladder Co. 85 that got to Ground Zero not long after the 2nd tower collapsed. We will also have some great songs from none other than Frank Di Salvo to bring the glory of all that we have lost into our hearts on this day of remembrance, September 11, 2023.

Please come on over to our new headquarters as soon as you can! I would like everyone to wear red, white, and blue at our September Luncheon. The harmony within our wonderful club shows at every event we have. Let's be ready to show America that we are taking the lead to make sure our 2024 election doesn't miss a step!

See You soon!

From Arlene Wohlgemuth, Take Action Chairman...

The Take Action Committee is not meeting during August but will be back full swing in September. The legislature is on summer break July 14-August 14. Though there are many, many other bad bills, these are some that BOTH of our Coachella Valley Assemblymen Greg Wallis (R) and Eduardo Garcia (D) voted YES on.

AB 659 – Though not (yet) a mandate, students and parents will be advised to be receive the HPV vaccination before enrolling in 8th grade or California State Universities, California Community Colleges, and University of California schools.

AB 5 - Requires teachers to complete training that instructs them on how to identify students whose parents don't affirm their child's LGBTQ+ identity, identify and implement LGBTQ+ inclusive curriculum, and counseling services for LGBTQ+ youth.

AB 223 – Requires that any petition for a change of gender and sex identifier or a petition for change of gender, sex identifier, and name filed by a person under 18 years of age, and any papers associated with the proceeding, to be kept confidential by the court. The bill would require the court to limit access to these records to specified individuals, including, among others, the minor, the minor's parents, and their attorneys.

AB 352 - Prohibits a health care provider, health plan, contractor, or employer from cooperating with any investigation, or provide medical information to, any individual or agency from another state, that would identify an individual and that is related to seeking or obtaining an abortion or abortion-related services.

AB 576 - Requires the state to fully reimburse Medi-Cal health care providers that provide abortion pills.

AB 598 - Adds a section to comprehensive sexual education (CSE) that gives students physical or digital resources on nearby abortion services. Requires schools with students in grades 5-12 to administer the California Healthy Kids Survey, with questions on sexual and reproductive health care given to students in grades 7, 9, and 11.

AB 957 - California courts to consider whether or not a parent affirms his or her child's transgender identity when making custody determinations. (Garcia did not vote either way on this bill.)

AB 1078 – School districts and board members would not be able to prohibit certain school textbooks, instructional materials, and curriculum.

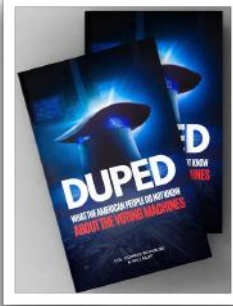

AB 1432 - Requires every group health plan, policy or certificate of group health insurance marketed, issued, or delivered to a resident of this state, to cover abortion, abortion-related services, and gender affirming care.

HR 33 – The House resolution co-authored by Wallis and Garcia to recognize LGBTQ+ Pride Month. The corresponding Senate resolution recognized Sisters of Perpetual Indulgence.

ACA 5 – Deletes the constitutional provision passed by the voters as Proposition 8 - "Only marriage between a man and a woman is valid or recognized in California." ACA 5 will replace the language with the following broad and non-specific statement: "The right to marry is a fundamental right." (Assemblyman Greg Wallis co-authored as well as voted yes; Eduardo Garcia did not register a vote.)

Digital Warriors Defined: We are the largest and most lethal fighting force the powers of evil have ever faced. An Army more that 1 billion strong, raised up by the Living God to reclaim the minds and hearts of man. We are doctors, garbage men, nurses, professors, attorneys, teachers, factory workers, businessmen, cooks, fathers, wives and friends, united as Digital Soldiers and assigned the same mission: Eradicate the lies of the world and those who tell them. We will get every last one.

From Velma Hagar East Valley Chaplin...

An inalienable right is a God given right and men are not allowed to tamper or take them away. Government cannot regulate inalienable rights. This is a category that came from God. So what is an inalienable right? The bill of rights establishes these God given rights. First amendment grants the freedom for Religion, peace, freedom of speech, to peacefully assemble, and the right to petition. Separation of church and state is no where in our constitution! What Jefferson meant by that statement was to prohibit a government religion. It is constantly misused. The government has no right to mess with our right to freedom of religion or any other God-given, right. Stay abreast of what is going on and become familiar with your constitution and bill of rights..

**MUST VIEW! SIX REASONS COMPUTERS SHOULD NOT BE USED IN VOTING
DR. WALTER DAUGHERTY - Synopsis by Editor Diana Gomez**

After elections I've called the Voter Registrar asking if there is a way to see how the machine counted my vote and of course I get an answer that is they don't have that kind of information. For the past 20-30 years our government has used computers with no transparency and you can see the government we have now.

Dr. Daugherty is a computer expert that answers my question about my vote being counted and the lack of transparency in vote counting. This is a must view 49 minute video which will answer your question on your vote and what we need to do to be sure our elections are secure. It is one thing to ballot harvest but if the machine itself is vulnerable then there is a big problem. <https://rumble.com/v33gb0k-6-reasons-why-computers-should-not-be-used-in-elections-dr-walter-daugherty.html?mref=6zof&mrefc=2>

Daugherty Six Points:

- 1) **No Transparency** when using computers. Hand counted ballots and hand marked ballot are almost 100% transparent. Computer count of ballots comes out without knowing what happened in-between putting ballot in machine and the final count. Questions like was the vote ignored or was the vote flipped. We don't know. It provide opportunity for anyone to interfere with the election. Lack of transparency is the reason voting computers must go.
- 2) **No Accountability.** There has not been a review of the Source Code in the voting computers. People in charge of voting must be able to look inside the computer for the Source Code. There must be back up of the computers like the banks and the software must be performing the way it was meant to perform.
- 3) **Accuracy?** Need to be sure the ballots are genuine and not counterfeits. Machines can count counterfeit ballots.
- 4) **Vulnerable Software:** Critical security patches must be kept up to date but most virus definitions are not updated for a year.
- 5) **Vulnerable Hardware** - Components made in other countries like China put chips in the motherboards which are spy chip. Motherboards are the heart and soul of the computer. Computer have USB ports/keyboards with connections that plug into the computer which in turn is connected to wifi, wire fire or bluetooth remote access capability. No voting machine is to be connected to the internet.
- 6) **Vulnerable Network** has internet access that bad actors can take advantage of although the computer is off. The computer can still be accessed from the electrical plug in the wall. That's why updates on your computers can access your computer while you are asleep.

GOD’S CHILDREN ARE NOT FOR SALE!

SEE SOUND OF FREEDOM AT YOUR LOCAL THEATER!

The film was completed 5 years ago but Hollywood wouldn’t promote it so Eduardo Verastegui Producer started his own production company with 2 others. His first film was Bella and his 2nd was Little Boy both hits. He says the U.S. is the biggest consumer of child sex in the world with Mexico being the provider.

When you see this film you will be puzzled why Tim Ballard put his life on the line to save these kids...Its a remarkable story which will keep you on edge. Child Sex trafficking is a \$150B global industry with the United States having the disgraceful position as the worlds leader. No doubt one of the reasons the Epstein files haven't been revealed is that it's full of Politicians and CEO's of major Global companies. If you see the film it will change you and it will anger you asking yourself why are these scoundrels getting away with it.

It is CRITICAL to see Sound of Freedom this weekend. This Saturday and Sunday will determine how long it runs at the box office, enabling it to expand the amount of theaters and screenings.

The film's main message is “Gods Children are not for sale”.

<https://www.youtube.com/watch?v=hyyyKcfJRGQ>

Timothy Ballard is an American anti-human trafficking activist and author.[1] He is the founder and former CEO of Operation Underground Railroad (O.U.R.),[2] former CEO of The Nazarene Fund,[3] and the author of several books.[4][5] The 2023 American action film Sound of Freedom starring Jim Caviezel was inspired by the work of Ballard.

How the Left is Abusing the 14th Amendment to Interfere in Our Elections
How The Left Is Using Couy Griffin To Remove Donald Trump
 Brandon Straka

Dear Patriots,

Please SHARE this video on your social media and with everyone you know. This is important, and it's received little to no coverage from conservative media- and this is how the left is able to get away with their devious plots and schemes to destroy our country from the inside out.

The story of Couy Griffin needs to be heard by every American. Couy is the first American since 1869 to be removed from elected office for "insurrection".

Couy was a duly elected County Commissioner in New Mexico who received a misdemeanor trespassing charge for being OUTSIDE the Capitol on J6. The left tried to have Couy recalled after J6- but his constituents VOTED to have him remain in office. The "protect our democracy" zealots didn't like the way the voters voted, so decided to subvert democracy by using the courts to have Griffin labeled an "insurrectionist" and removed from office under the 14th Amendment. It worked. Now, leftist activist lawyers are using the precedent set by the Couy Griffin case to have Donald Trump permanently barred from office.

This story needs to be heard by everyone. The left will destroy every trusted institution in their craven, unhinged mission to stop free Americans from voting for Donald Trump under the guise of "protecting free and fair elections".

Stay strong and stay in the fight!
All my love,
Brandon

What Declaration of Independence Teaches Us About Our Rights, Duties as Americans

The Daily Signal - The Heritage Foundation

If we want to conserve the American nation, then we must begin with the Declaration of Independence.

God is also present in the declaration. He is mentioned or referred to four times. God is presented as Creator, Legislator, Provident, and Judge. Men are created equal, and nature is ordered and formed by God—precisely the activities of creating and legislating.

CHOOSE ONE

The WEF & UN "Agenda 2030" explicitly demands open borders and the unlimited weaponized mass migration of hundreds of millions of people from the third world into America and all other European and Western countries. Their goal is to eliminate the very concept of national identity.

The WEF & UN plan is to create a global population of rootless nomads without loyalty to any nation or cultural heritage. These imported tribes from backward countries will be in perpetual conflict with the people of the target countries, resulting in a perceived requirement for increasingly harsh security measures to maintain minimal levels of personal safety.

This is a feature, not a bug, of the WEF & UN weaponized mass migration scheme. Their plan is to replace and then to eradicate the hard-to-control people of Western nations who value the concept of individual freedom.

If your national leaders support this weaponized mass migration, they are TRAITORS to your country and to your people. Political leaders must choose one: loyalty to country, or to the rising caste of WEF globalist overlords who intend to crush our freedom and turn us into their slaves.

Black Stars - No Quarter. No Mercy.

No Prisoners.

Surrender NOW, or you will be destroyed.

What remaining (DS) assets was the message for?

We are watching "some of the most complex military operations in nation's history" - Chris Mill, outgoing SecDef 2020

Here's the full Trump speech in Erie, PA. Pay attention to the black stars on the flag when he comes out. See orange arrow above.

Definition "No Quarter": "If army leaders commanded their soldiers to give no quarter, this meant to take no prisoners. In other words, kill all of the opponents, even if they surrendered. Over time, people began to use this military command figuratively, meaning to show no compassion." <https://writingexplained.org/idiom-dictionary/give-no-quarter>
